## PROFILE

I'm Dong Wei Jie, an experienced developer focused on creating dynamic web solutions with user-friendly design and seamless functionality. I specialize in both backend and frontend development, utilizing a diverse range of technologies, including SQL, Java, Python, HTML, ASPX, and CSS, with a basic understanding of 8086 Assembly Language and C++. Additionally, I have working knowledge of Adobe Photoshop and Premiere Pro, which allows me to create and edit visual and multimedia content when needed. I am committed to staying updated with the latest technologies and best practices to deliver innovative and effective solutions.

## WORK EXPERIENCE

**MapIT MSC SDN BHD** — JUL 2022 - NOV 2022

Trainee of Cartography

- Assisted senior cartographers in the creation and maintenance of digital maps using GIS software.
- Learned and applied cartographic principles and techniques under the guidance of experience professionals.
- Collaborated with team members to ensure the accuracy and quality of map products.

**MapIT MSC SDN BHD** — NOV 2022 - JAN 2023

Junior of Cartography

- Conducted field surveys to collect geographical data and verify existing mapping information.
- Contributed to the development of thematic maps for various projects, including topographic, demographic, and environmental maps.
- Participated in training sessions to enhance skills in cartographic software, data analysis, and map design.
