No. 1048, Blok 10, Tingkat 4, La Villas Condominium, Jalan 3/21B, Taman Setapak, 53000 Kuala Lumpur`

EDUCATION

2023-2026

TUNKU ABDUL RAHMAN UNIVERSITY OF MANAGEMENT AND TECHNOLOGY

- Bachelor of Software Engineering (Honours)
- CGPA 2.9

2021-2023

TUNKU ABDUL RAHMAN UNIVERSITY OF MANAGEMENT AND TECHNOLOGY

- Diploma In Computer Science
- CGPA: 3.5

COMPUTER SKILLS

- Vercel
- JAVA
- HTML + CSS + JavaScript
- React + Vite
- Github
- Docker
- Kubernetes
- Kotlin
- Python

LANGUAGES

- Mandarin (Spoken & Written)
- English (Spoken & Written)
- Bahasa Melayu (Spoken & Written)
- Cantonese (Spoken)
- Hokkien (Spoken)

PROFILE

I'm Dong Wei Jie, an experienced developer focused on creating dynamic web solutions with user-friendly design and seamless functionality. I specialize in both backend and frontend development, utilizing a diverse range of technologies, including SQL, Java, Python, HTML, CSS, and modern frameworks such as React with Vite. I also have hands-on experience with containerization and deployment tools like Docker and Kubernetes, enabling me to work with scalable and efficient application environments.

In addition, I have working knowledge of Adobe Photoshop and Premiere Pro, which allows me to create and edit visual and multimedia content when needed. I am committed to continuously learning and staying updated with the latest technologies and best practices to deliver innovative, efficient, and high-quality solutions.

WORK EXPERIENCE

MapIT MSC SDN BHD — NOV 2022 - JAN 2023

Trainee of Cartography

- Assisted senior cartographers in the creation and maintenance of digital maps using GIS software.
- Conducted field surveys to collect geographical data and verify existing mapping information.
- Contributed to the development of thematic maps for various projects, including topographic, demographic, and environmental maps.

Flexinfra SDN BHD — NOV 2025 - APR 2026

Trainee of AI DevOps

- Assisted in testing and validating features within the AI-Stack platform to ensure system functionality, performance, and stability for AI/ML operations.
- Performed AI model fine-tuning using Phison aiDAPTIV, including dataset preparation, configuration of training parameters, and evaluation of model performance.
- Supported deployment processes by assisting in setting up environments, handling containerized applications using Docker and Kubernetes, and performing basic system configuration.
